## Aims and Scope

*Research and Practice in Thrombosis and Haemostasis* (RPTH) is the newest journal of the International Society on Thrombosis and Haemostasis (ISTH) and the newest journal in the field of thrombosis and hemostasis. Complementing its flagship journal, the *Journal of Thrombosis and Haemostasis* (JTH), RPTH provides a dedicated Open Access home for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients.

RPTH is a “living journal” and serves as a jumping point for digital discussion. It also reflects the current era of inter-disciplinary scientific discovery and new methods of knowledge dissemination and the wide reach of ISTH by featuring articles from all corners of the globe. RPTH provides rigorous, rapid peer review and immediate dissemination of research reports from basic, clinical, translational and population or public health science. The Journal is interested in quality, outcomes, dissemination and implementation science, seeking studies and trials on novel care delivery, including in areas of resource constraint around the world.

Digital discussion is encouraged through the dedicated Twitter account: @RPTHJournal and can be found with the hashtag #RPTH

## Open Access and Copyright

All articles published by *Research and Practice in Thrombosis and Haemostasis* are fully open access: immediately freely available to read, download, and share. All *Research and Practice in Thrombosis and Haemostasis* articles are published under the terms of the Creative Commons Attribution-NonCommercial-No Derivs license (“CC-BY-NC-ND”), which permits users to copy, distribute, and transmit an article as long as the author is attributed, the article is not used for commercial purposes, and the work is not modified or adapted in any way. An exception is made for Contributors funded by agencies requiring use of a Creative Commons Attribution license (“CC-BY”) which permits others to use, distribute, reproduce, remix, tweak, and build upon the work in any medium (even commercially) as long as the Contribution is credited for the original creation. Such funders include the Research Councils UK, the Wellcome Trust and other funders recognized by the Publisher as requiring a CC-BY license, who may publish their Contributions under a CC-BY license.

Copyright on any research article published by *Research and Practice in Thrombosis and Haemostasis* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher.

Further information about open access license and copyright can be found at: <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright--License.html>.

## Contact Details

*Research and Practice in Thrombosis and Haemostasis* is published by Wiley Periodicals, Inc., 101 Station Landing, Suite 300, Medford, MA 02155, USA.

Editorial Correspondence/Information for Authors: [rpth@jjeditorial.com](mailto:rpth@jjeditorial.com)

# Research and Practice in Thrombosis and Haemostasis

Volume 2 • Issue 2 • April 2018

## Editorial

- 180 Search engine optimization: What is it and why should we care?  
*Mary Cushman*

## Commentaries

- 182 Direct oral anticoagulant use and risk of perioperative bleeding: Evidence of absence or absence of evidence?  
*Willem M. Lijfering and Ynse I. G. V. Tichelaar*
- 186 “Trending” statistical methods  
*George Howard and Leann D. Long*

## State of the Art ISTH 2017

- 188 The coagulation system in atherothrombosis: Implications for new therapeutic strategies  
*Renske H. Olie, Paola E.J. van der Meijden, and Hugo ten Cate*
- 199 Current and future burden of venous thrombosis: Not simply predictable  
*Luuk J. J. Scheres, Willem M. Lijfering, and Suzanne C. Cannegieter*
- 209 Prevention and treatment of the post-thrombotic syndrome  
*Arina J. ten Cate-Hoek*
- 220 Product type and other environmental risk factors for inhibitor development in severe hemophilia A  
*Flora Peyvandi and Isabella Garagiola*
- 228 Glycoprotein VI in securing vascular integrity in inflamed vessels  
*Yacine Boulaftali, Marie-Anne Mawhin, Martine Jandrot-Perrus, and Benoît Ho-Tin-Noé*
- 240 Proteolytic processing of platelet receptors  
*Elizabeth E. Gardiner*

## Review Article

- 251 Pharmacological reversal of the direct oral anticoagulants—A comprehensive review of the literature  
*Joseph R. Shaw and Deborah M. Siegal*

## Methodological Article

- 266 Update on the electrolytic IVC model for pre-clinical studies of venous thrombosis  
*Olivia R. Palmer, Maxim E. Shaydakov, Joshua P. Rainey, Daniel A. Lawrence, Joan M. Greve, and José A. Diaz*

## Original Articles: Thrombosis

- 274 Effects of daily aspirin on cancer incidence and mortality in the elderly Japanese  
*Kenji Yokoyama, Naoki Ishizuka, Naomi Uemura, Yuji Mizokami, Hideyuki Hiraishi, Mitsuru Murata, Shinichiro Uchiyama, Tamio Teramoto, Kazuyuki Shimada, Tsutomu Yamazaki, Shinichi Oikawa, Masahiro Sugawara, Katsuyuki Ando, and Yasuo Ikeda, on behalf of the JPPP study group*
- 282 Perioperative interruption of direct oral anticoagulants in patients with atrial fibrillation: A systematic review and meta-analysis  
*Joseph R. Shaw, Jason D. Woodfine, James Douketis, Sam Schulman, and Marc Carrier*
- 291 Safety and effectiveness of apixaban compared to warfarin in dialysis patients  
*Daniel Reed, Surabhi Palkimas, Rebecca Hockman, Sumner Abraham, Tri Le, and Hillary Maitland*
- 299 Risk factors for recurrence in deep vein thrombosis patients following a tailored anticoagulant treatment incorporating residual vein obstruction  
*Michael Nagler, Hugo ten Cate, Martin H. Prins, and Arina J. ten Cate-Hoek*

- 310 Biomarkers, menopausal hormone therapy and risk of venous thrombosis: The Women's Health Initiative  
*Mary Cushman, Joseph C. Larson, Frits R. Rosendaal, Susan R. Heckbert, J. David Curb, Lawrence S. Phillips, Alison E. Baird, Charles B. Eaton, and Randall S. Stafford*
- 320 Factor V levels and risk of venous thrombosis: The MEGA case-control study  
*Inge M. Rietveld, Mettine H. A. Bos, Willem. M. Lijfering, Ruifang Li-Gao, Frits R. Rosendaal, Pieter H. Reitsma, and Suzanne C. Cannegieter*
- 327 The association between red cell distribution width and venous thromboembolism is not explained by myocardial infarction, stroke, or cancer  
*Trygve S. Ellingsen, Jostein Lappegård, Tove Skjelbakken, Ellisiv B. Mathiesen, Inger Njølstad, Sigrid K. Brækkan, and John-Bjarne Hansen*
- 334 Characteristics of pain, other symptoms and function in pediatric post-thrombotic syndrome  
*Maria L. Avila, Jennifer Stinson, Celeste Lumia, Suzan Williams, Madeline I. Montoya, Brian M. Feldman, and Leonardo R. Brandão*
- 339 Fibrinogen concentrations predict long-term cognitive outcome in young ischemic stroke patients  
*Annie Pedersen, Tara M. Stanne, Petra Redfors, Jo Viken, Hans Samuelsson, Staffan Nilsson, Katarina Jood, and Christina Jern*
- 347 Design and rationale for the DIVERSITY study: An open-label, randomized study of dabigatran etexilate for pediatric venous thromboembolism  
*Manuela Albisetti, Branislav Biss, Lisa Bomgaars, Leonardo R. Brandão, Martina Brueckmann, Elizabeth Chalmers, Savion Gropper, Ruth Harper, Fenglei Huang, Matteo Luciani, Ivan Manastirski, Lesley G. Mitchell, Igor Tartakovsky, Bushi Wang, and Jacqueline M. L. Halton*
- 357 Antigenic binding sites of anti-protein S autoantibodies in patients with recurrent pregnancy loss  
*Yoshihiro Sato, Toshitaka Sugi, and Rie Sakai*
- 366 The impact of repeated freeze-thaw cycles on antiphospholipid antibody titer  
*Karel Maelegheer and Katrien M. J. Devreese*

### **Original Articles: Haemostasis**

- 370 MMP-13 binds to platelet receptors  $\alpha IIb\beta 3$  and GPVI and impairs aggregation and thrombus formation  
*Joanna-Marie Howes, Nicholas Pugh, Samir W. Hamaia, Stephanie M. Jung, Vera Knäuper, Jean-Daniel Malcor, and Richard W. Farndale*
- 380 Effects of anti- $\beta 2$ GPI antibodies on VWF release from human umbilical vein endothelial cells and ADAMTS13 activity  
*Christopher J. Ng, Keith R. McCrae, Katrina Ashworth, Lucas J. Sosa, Venkaiah Betapudi, Marilyn J. Manco-Johnson, Alice Liu, Jing-Fei Dong, Dominic Chung, Tara C. White-Adams, José A. López, and Jorge Di Paola*
- 390 Common VWF sequence variants associated with higher VWF and FVIII are less frequent in subjects diagnosed with type 1 VWD  
*Veronica H. Flood, Jill M. Johnsen, Caroline Kochelek, Tricia L. Slobodianuk, Pamela A. Christopherson, Sandra L. Haberichter, Rupa Udani, Daniel B. Bellissimo, Kenneth D. Friedman, and Robert R. Montgomery*

### **Letter to the Editor**

- 399 Galectin-3 in venous thrombosis: A possible new target for improved patient care  
*Melanie M. Flaherty, Olivia R. Palmer, and Jose A. Diaz*
